Let me introduce myself. My name is Reza Khoirul Wijaya Putra, I'm 17 years old, and I was born and raised in Karawang, Indonesia. I graduated from a vocational high school, and my hobby is coding. I enjoy taking on freelance projects, and I have one year of experience as a programmer. I am interested in the backend developer position, but I am also proficient in full-stack development using Laravel.

Experience

Freelance Web Developer

2022 - Now

- Currently I am a freelance web developer, specifically a fullstack web developer
- As a programmer who works professionally, I write code neatly and use code refactoring. Even though I don't have much experience, I will provide the best quality work
- As a freelance web developer, negotiating with clients is one of my soft skills
